

Adding FAQ's to your website

On the admin panel under modules you have the option to add FAQ's to your website

You will see in the right hand side action box an option to create new FAQ, this will open up the following page for you to complete

FAQs: New FAQ [More Help?](#) [Open Hints](#)

Once you have completed your FAQ you will then need to add it to your site.

If you have different streams to your business and would like separate FAQ's for each sector then you will need to classify your FAQ's under the relevant section (Action Box – Classify this item)
